- The country's first solid waste-to-hydrogen plant will be set up in Pune.
- The plant will be built by a private company Green Billion Limited.
- It will produce 10 tons of hydrogen daily from 350 tons of solid waste.
- The fuel from waste will be used to generate hydrogen using plasma gasification technology.

# TNPSC GATEWAY

DAILY CURRENT AFFAIRS

February 1 to 28, 2023

## Cargo hyperloop

- IIT Kanpur has developed an energy-efficient compressed air-based pipeline system for transporting coal and minerals.
- The cargo-based hyperloop system will address challenges such as material loss, uncertainty in delivery time and air pollution.
- The system is designed to transport coal or slurry from one point to another with compressed air as its energy source.

## Kerala: First State To Use Robotic Manhole Cleaners

- Kerala uses a BANDICOOT robot to clean sewage. With this, it has become the first state to launch robotic scavengers. BANDICOOT was launched in the temple town Guruvayur. Genrobotics developed the robot.
- The main objective of developing the robot is to eliminate manual scavenging.

## 5.2. Space

### SSLV D2

- ISRO's Small Satellite Launch Vehicle (SSLV) placed three satellites, including earth observation satellite EOS-07, in intended orbits
- EOS-07, weighing 156.3kg, has a mission life of one year.
- SSLV is capable of launching mini-micro or nano satellites (10 to 500kg mass) into 500km planar orbits.
- SSLV is a three-stage vehicle with all solid propulsion stages

# TNPSC GATEWAY

DAILY CURRENT AFFAIRS

February 1 to 28, 2023

## Nuclear Fission powered Spacecraft

- NASA and the Defense Advanced Research Projects Agency (DARPA), have unveiled plans to test nuclear-powered rockets that would fly humans to Mars.
- DARPA will develop the nuclear reactor and engine for this nuclear rocket.
- NASA hope to fly in an in-space demonstration as early as 2027.
- This mission is called as DRACO-Demonstration Rocket for Agile Cislunar Operations

## World's First Cloud-Built Demo Satellite

- JANUS-1 satellite that rode on Isro's new mini-rocket SSLV-D2 and reached its orbit successfully.
- It is the world's first satellite fully conceived, designed and manufactured using an Indian company's end-to-end cloud platform.
- It is a software defined 6U technology demonstration satellite designed and built using the Antaris cloud software platform and SatOS software.

## India's first hybrid rocket

- India's first hybrid sounding rocket by private players was launched from
- Pattipulam village, Chengalpattu.
- Martin Foundation, in association with Dr. APJ Abdul Kalam International
- Foundation and Space Zone India, launched the Dr. APJ Abdul Kalam Satellite Launch Vehicle Mission - 2023.

# TNPSC GATEWAY

DAILY CURRENT AFFAIRS

February 1 to 28, 2023

- The rocket can be used for research in weather, atmospheric conditions and radiations.

## 6. NATIONAL - DIARY OF EVENTS

### National Child Science Congress

- The National Council for Science and Technology operating recently organized the National Child Science Congress-2023.
- The congress was hosted by the Gujarat Council of Science City.
- It was held in Ahmedabad, Gujarat.
- The theme of the event was "Understanding Eco System for Health and Wellbeing".
- The National Child Science Congress is being held in the country since 1993.
